### **Political disclaimer**

The views, opinions, arguments and recommendations presented in this Suggestion to the redistribution of electoral divisions of New South Wales are the author's own and in no way reflect the views of Services Australia, the Australian Public Service or Australian Government.

My right to hold and express political views as an Australian Citizen is [protected under Australian law](#).

Exercising this right to participate in public and political debate by lodging this public submission in no way affects my capacity to fulfill my duties in a professional, impartial, and apolitical manner.

This submission complies with conditions of employment in the Australian Public Service (APS) in accordance with the *Public Service Act 1999*, the [APS Values, Code of Conduct and Employment Principles](#), and [Social media: Guidance for Australian Public Service Employees and Agencies](#)

I hold no interest in, and do not stand to receive any benefit or advantage resulting from the outcome of this redistribution. I have written this submission as a private citizen taking a personal interest in psephology and the electoral redistribution process. I am not now, nor at any time in the past been a member of any political party or similar associated organisation, except as a past union member.

This submission is lodged claiming political neutrality. No political bias or partiality is implied within this submission and none should be inferred. This submission is lodged in accordance with [guidelines for making public submissions to a redistribution](#). The political implications – if any – of the recommendations have not formed part of the recommendation and should not be inferred.

Division names – including any suggested new names – comply with [guidelines for naming federal electoral divisions](#), except where explicitly stated otherwise. Suggested names are based on the individual's merit and contribution to Australian society, and do not imply any political bias towards the eponymous persons. Proposals to abolish or rename a division – if any – do not reflect the performance or character of the current member of Parliament representing that division or the eponymous person, unless specified.

Criticism of submissions or decisions taken as part of this redistribution, or a previous redistribution, is based solely on the merit of the arguments and recommendations presented therein and serves solely to improve electoral representation for the people of New South Wales. It is not in any way a reflection upon the character or abilities of any individual, government, community group or organisation participating in this process, nor any member of a Redistribution Committee, augmented Electoral Commission, any other member of the APS, the Australian Electoral Commission, any other Australian Government entity, agency, department or any current or past member of Parliament.

## Synopsis

This is a written suggestion under subsection 64(1)(a) of the *Commonwealth Electoral Act 1918* for the redistribution of New South Wales and covers both the names and boundaries of all divisions within New South Wales.

Every redistribution is an opportunity to evaluate community of interests and provide some scope for improvement. Similarly, the names of existing divisions should be examined at every redistribution to ensure that they continue to recognise the contributions of worthy Australians, and that those honoured exhibited values and deeds that reflect modern Australian society.

This suggestion can be viewed as an online map available at :

[https://api.mapbox.com/styles/v1/dmcs/w/ckgl3g19d1a1q19mp716n2uzn.html?fresh=true&title=copy&access\\_token=pk.eyJ1joiZG1jc3ciLCJhljoiY2poa21kaGs4Mm95YjM2bzFxMmNkYmJnaCJ9.xhKyqTaibNsU01LzeWpjkw](https://api.mapbox.com/styles/v1/dmcs/w/ckgl3g19d1a1q19mp716n2uzn.html?fresh=true&title=copy&access_token=pk.eyJ1joiZG1jc3ciLCJhljoiY2poa21kaGs4Mm95YjM2bzFxMmNkYmJnaCJ9.xhKyqTaibNsU01LzeWpjkw)

In determining the division boundaries and names, I consider the [Guidelines for making public submissions to a redistribution](#) and the [Guidelines for naming federal electoral divisions](#). I apply my own principles in relation to retaining federation names and aim to increase diversity of representation if names of divisions are to be created, renamed or retired.

I propose that the division of **COOK** be jointly dedicated to honour the only deceased prime minister without a division named for him, Sir Joseph Cook. I also propose electoral divisions of **BLAXLAND** and **NORTH SYDNEY** be abolished and a new division named **BELLEAR** be created.

No changes are made to **RICHMOND**, **LYNE**, **NEWCASTLE**, **ROBERTSON**, **CALARE** or **FARRER**. Minor changes are made to **PAGE**, **COWPER**, **DOBELL**, and **SHORTLAND**. **PATERSON** transfers part of Cessnock to **HUNTER**.

**NEW ENGLAND** gains Muswellbrook, while **PARKES** gains Parkes, Bland and Forbes. **RIVERINA** gains Snowy Valleys and Yass. In exchange Eden-Monaro gets all of Eurobodella. This pushes Gilmore into Shellharbour, and then the Southern Highlands are added to **HUME**. **WHITLAM** moves north toward Wollongong and this pushes **CUNNINGHAM** into Sutherland. **HUGHES** then moves entirely into Liverpool and Campebltown.

**COOK** retreats to Sutherland, with **BARTON** taking over the areas north of the Georges River. **WENTWORTH** and **KINGSFORD SMITH** expand into **SYDNEY**, which in turn takes Balmain and Rozelle from **GRAYNDLER**. This causes **GRAYNDLER** to move into Canterbury, **WATSON** and **BANKS** take up part of Bankstown. **BLAXLAND** is abolished. **REID** makes minor changes with **GRAYNDLER**, **PARRAMATTA**, and **WATSON**.

**McMAHON** becomes a Cumberland City division, with Fairfield City moving to **FOWLER**. **PARRAMATTA** and **MITCHELL** use the M2 Motorway as a boundary, while **BEROWRA** moves into Ku-ring-gai City and **BRADFIELD** merges with **NORTH SYDNEY**. **WARRINGAH** takes over North Sydney City and **BENNELONG** gains Hunters Hill. **MACKELLAR** expands southward into **WARRINGAH**.

**GREENWAY** takes Toongabbie from **PARRAMATTA**, while giving Riverstone to **CHIFLEY**. Areas south of the Main Western railway line in Blacktown and Penrith are transferred from **GREENWAY**, **CHIFLEY** and **LINDSAY** to become a new division called **BELLEAR**. This also includes areas around Bossley Park and Abbotsbury from **FOWLER** and Bonnyrigg Heights and Cecil Hills from **WERRIWA**.

The large growth in **MACARTHUR** and **WERRIWA** is balanced by giving stable established suburbs to **MACARTHUR**, while **WERRIWA** balances the Camden Council growth areas with the less developed parts of Liverpool.

## Introduction

### About this suggestion

A redistribution under subsection 59(2)(c) of the *Commonwealth Electoral Act 1918* (The Electoral Act) was scheduled to commence on 26 February 2023. This redistribution was deferred in accordance with subsection 59(5) as the Electoral Commission were of the opinion that the upcoming determination would likely change the number of members to which New South Wales is entitled. That deferral was validated following the entitlement determination made under subsection 48(1) on 27 July 2023 where the number of members of the House of Representatives to which New South Wales is entitled changed.

The entitlement determination requires that New South Wales decrease its electoral representation by one seat, to 46 seats. This continues the trend of reducing representation in New South Wales since 2006 as the population in New South Wales grows at a slower rate than other states.

The abolition of an electoral division inevitably necessitates a more radical redistribution than one occurring as a result of the passage of time. However in this case with so many divisions previously under quota, the changed entitlement actually helps. Many of the divisions under quota with 47 seats are now within tolerance. However, some of these divisions will still need some adjustments assist with bringing nearby divisions into tolerance.

Every redistribution is an opportunity to evaluate the existing boundaries to determine the extent that they meet the community of interests grounds of subsection 66(3)(b) of the Electoral Act. At last some of the existing divisions ultimately contain deficiencies in community of interests grounds as a result of the numerical restraints imposed in subsection 66(3)(a) of the Electoral Act, and as such there will almost always be scope for improvement.

### Enrolment quota

In order to comply with the numerical requirements of the Electoral Act, the number of electors enrolled in each division must not vary by more than 10 per cent from the redistribution quota. The Electoral Commissioner determined the redistribution quota for New South Wales on 9 August 2023 to be 121,011 electors. This means that no division can contain more than 133,112 or less than 108,910 electors.

The projected number of electors must, as far as practicable, be within 3.5 percent of the quota of 129,621 electors on the projection date of 10 April 2028, meaning divisions must contain between 125,085 and 134,157 electors. The numerical tolerances under subsections 66(3)(a) and 66(3)(b) of the Electoral Act are the only mandatory criteria, so these figures supersede any other community of interests factors and the numerical tolerance must be maintained.

# Methodology

## Determining boundaries

In drafting this suggestion, I have endeavoured to comply with the requirements of subsection 66(3)(b) of the Electoral Act, taking into account:

- i. community of interests, including economic, social and regional interests;
- ii. means of communication and travel;
- iv. the physical features and area; and
- v. the boundaries of existing divisions within the State.

I attempt to use clear boundaries wherever possible to ensure that electors can easily identify the division in which they live. I will split SA1 areas where a geographic feature makes for a more logical division boundary. In cases where split SA1 elector data is not available, I make a judgement call as to which division I include the electors. More accurate information should be available for the Committee to ensure all divisions fully comply to numerical constraints. In these cases, I aim to ensure that either division could afford the entire SA1 population within the numerical threshold.

In order to obtain the best communities of interests, I intend to make use of the full tolerance of the quota and enrolment in several divisions will be close to the threshold. I believe that the threshold under subsection 66(3)(a) exists for a reason, and should be used to the full extent where its use achieves better representation for electors. I know that there is a trend to ensure areas with particularly high or low growth are balanced, in the hopes that a future redistribution could minimise changes. I do not believe this is necessary. Often the projected numbers fail to accurately predict the actual growth patterns, and as a result, any future redistribution conducted will generally readdress these concerns at the time.

Unless explicitly specified, references to elector numbers refer to projected enrolment figures, as this is generally the stricter criterion used in determining electoral boundaries.

In the main, this is a cascading process. I will start with an “anchor” division, usually in the corner of the state, or in an area with few options to expand or shed electors. From this division, the electors are shifted in a cascading manner from one division to the next until all divisions are updated.

## Boundaries of existing divisions

I intend to use the existing divisions as building blocks of my suggested divisions. However, in doing so, I note that under section 66(3A) of the Electoral Act, the existing boundaries are considered subordinate to the other criteria. Hence, the existing boundaries should always

yield to community of interests grounds where the existing boundary would otherwise divide a united community and the numerical tolerance allows.

## Community of interests

Defining a community of interests can be ambiguous and is often the subject of debate within suggestions and objections. For the most part, a single community of interests is a group of residents who share similar amenities, socialise or organise themselves into communities, share similar socio-economic demographics, live close by to one another, or otherwise identify as a community. It is highly unlikely that an electoral division will contain only one community of interests. In most cases, a division shall comprise several similar or interrelated communities.

Local government areas can be a good indicator of communities of interests, particularly in rural and regional areas. Often townships share amenities within local government areas and residents share similar professions, socio-economic or cultural demographics.

This is less so in metropolitan areas. Given the more fluid movement of residents in these areas, and shorter comparative distances, communities of interests often span local government boundaries. Furthermore, local government areas can often be anachronisms from history, or recent artificial amalgamations that, at times, bear little resemblance to the local communities of interests. For these reasons I am more willing to break up local government areas within metropolitan areas.

Suburb or locality boundaries can often be arbitrarily defined or unclear. They frequently make use of lines of sight, or ambiguous property boundaries. However, it is apparent that previous Committees have seen the usefulness in using them as division boundaries. As such, I will use suburb and locality boundaries where it is convenient and appropriate. Particularly within regional areas, a strong geographic boundary can often be difficult to come across, so a locality boundary can sometimes make more sense.

## Communication and travel

Means of communication and travel are important factors when determining boundaries for electoral divisions. Where separate communities need to be combined into a single division, it is always preferable that this occurs along transport corridors such as highways, main roads or railways. Creating divisions that are only contiguous on a map, but not connected with transport or communication corridors inevitably leads to some electors feeling disconnected from the rest of their community and, indeed often their local representative.

While major roads, railways or rivers can be used as boundaries to a great extent, care must be taken to ensure that a boundary is not drawn down a road or railway that actually unites

communities. More common in rural areas, sometimes a railway station or major road will become a community hub with electors and residents from either side accessing the facilities.

## Physical features and area

Physical features can often be used to determine boundaries. Often they impose severe barriers on communication and serve as natural boundaries. Rivers, bays, mountains and large bushland areas lend themselves to creating natural and convenient boundaries.

Inevitably at some point, the boundary will be drawn – probably down a street, railway or suburb boundary – where it, in fact, divides a community of interests. There will be residents that live either side of a given boundary that share a greater affinity with those on the other side of the line than with those that further afield within the division they have been assigned. This cannot be completely avoided, as the very nature of a redistribution means that a line must be drawn on a map somewhere. I strive to ensure that where a line is drawn, it is generally recognised as a local boundary, or logically could sensibly be interpreted to be one.

## Political fairness

I determine electoral division boundaries in a wholly impartial manner. As far as I consider, this means disregarding potential political implications for divisions or for members representing these divisions. I do not attempt to make myself aware of voting patterns at particular booths or within specific localities to avoid this bias influencing my decisions.

Political support or affiliation is not included as a criterion within section 66 of the Electoral Act, and I believe this omission was deliberate. I do not believe political support should form any part of the consideration of electoral boundaries. Any idea of fairness should be interpreted to mean without regard to political implications, rather than adding a complication of balancing ever-changing political ideologies among voters.

## Division Names

### Divisions named for colonial-era persons

Every redistribution provides an opportunity to ensure that divisions not only reflect communities of interests in drawing boundaries, but also that the names of the divisions reflect standards that are acceptable to contemporary society and the community.

According to the Guidelines for naming federal electoral divisions, in the main, divisions should be named after deceased Australians who have rendered outstanding service to their country.

Not surprisingly, an inordinately large number of divisions are named after colonial-era politicians, governors, pioneers or explorers. Several of these individuals – while making a contribution to, and even laying the foundations of, the Australia we know today – would hardly have considered themselves to be Australian. The appropriateness of some of these individuals to continue to receive recognition is, at best, obsolete, and, at worst, questionable.

This is especially true when considering that many of the individuals are already recognised in many other aspects of society. The names of local government areas, suburbs, roads and highways, geographic features such as mountains, rivers and bays, private and public institutions including military installations, universities, hotels, airports, banks or hospitals, public buildings or landmarks already honour these individuals. Many of these individuals are honoured with numerous legacies for them for example, the plethora of monuments and features dedicated to Maj. Gen. Lachlan Macquarie, Capt. James Cook or Hamilton Hume.

Largely, these colonial-era persons are men of European – primarily British or Irish – descent. So, it has been heartening to see a genuine attempt to address this diversity imbalance with division names in recent years being named for women, families that include women or indigenous persons. Some effort could still be made toward other people of non-European ethnicities, however I am hopeful this will come with time as these groups become more prevalent in Australian society.

Increased diversity of division names should be encouraged to continue. When renaming or abolishing divisions, we should look to remove divisions named for colonial-era men of European descent over divisions named for more contemporary or diverse individuals. This should apply particularly if the individual in question would have considered their nationality to be British, or has many other monuments in their honour. If it becomes inevitable that a division honouring a woman, indigenous person or other person of diverse background is to be abolished, we should look to renaming another nearby division to retain the name. There is precedent for this practice, with the division names **REID**, **HUNTER** and to some extent **COWAN** being retained where it could otherwise be expected that the division was to be abolished.

We have also seen a several divisions renamed when the conduct of those for whom the division is named has been called into question. In these cases, especially in the wake of ongoing practices worldwide, we should use the opportunity of a redistribution to rename divisions where it comes to be known that such individual conducted themselves in a way not deserving the honour of a division name. This is the case, to varying extent, with the former divisions of **BATMAN**, **McMILLAN**, **STIRLING**, **WAKEFIELD** and **DENISON**.

## Federation divisions

Federation divisions pose another problem. For the sake of clarity, federation divisions shall be taken to include the divisions in South Australia and Tasmania that were used for the 1903 election.

The guidelines recommend avoiding abolition or renaming of federation divisions. This guideline will likely need to be revisited in the future. The obvious and deserved inclusion of divisions named for prime ministers along with attempts to include more diversity in division names ultimately leads to either geographic or colonial-era divisions becoming candidates to rename. Not coincidentally, the majority of federation divisions are geographic or named for colonial-era persons.

We can already see problems geographic names cause. **WERRIWA** has not included its namesake – Lake George – for decades. There were strong objections at recent redistributions where the divisions of **PARRAMATTA** and **PERTH** were proposed without including the respective cities and the divisions of **CORANGAMITE**, **RICHMOND** and **RIVERINA** cover areas further away from their namesakes with every redistribution. The division of **PORT ADELAIDE** was also retired as a geographic name that also duplicated a state electoral division. The division of **CHARLTON** had to be renamed **HUNTER** to ensure a federation division name continued.

It may well come a time where this policy to retain federation division names becomes unviable. Even the various Redistribution Committees have felt it necessary to violate the policy at least five times since 2006, abolishing or renaming federation divisions in every state<sup>1</sup>, save Queensland.

Given the reasons above, I don't feel inclined to continue to adhere to this policy in cases where it is apparent that an existing federation division name is less suitable than another name for a division.

---

<sup>1</sup> Namely **GWYDIR**, **KALGOORLIE**, **DENISON**, **MELBOURNE PORTS** and **WAKEFIELD**.

## Division names in New South Wales

Of New South Wales's divisions, eight are named for former prime ministers – **BARTON**, **CHIFLEY**, **HUGHES**, **McMAHON**, **PAGE**, **REID**, **WATSON** and **WHITLAM**.

Three divisions in New South Wales – **FOWLER**, **GILMORE** and **MACKELLAR** – are named for women, while the division of **MACARTHUR** is jointly named after a husband and wife.

There is but one division named after an indigenous person – **BENNELONG**.

Fifteen federation divisions still exist, including two – **PARKES** and **RIVERINA** – which had previously been abolished. The division of **PARKES** is named after The Hon Sir Henry Parkes GCMG, New South Wales premier and the Father of Federation. Of the fifteen federation divisions, **EDEN-MONARO**, **HUNTER**, **NEW ENGLAND**, **NEWCASTLE**, **NORTH SYDNEY**, **PARRAMATTA**, **RICHMOND**, **RIVERINA** and **WERRIWA** are named after geographic features. Three of those are indigenous words, although only **WERRIWA** is an Aboriginal word where a different word is used in English. Notably, it has been well documented that this division has altered so considerably since its inception that is no longer bears any connection whatsoever to Lake George after which it was named. Likewise, the divisions of **RIVERINA** and **RICHMOND** now also hold only fleeting connection to their namesakes, the Riverina region now largely contained within the division of **FARRER** and the Richmond River and valley area almost entirely within the division of **PAGE**.

A further four non-federation divisions – **BEROWRA**, **CALARE**, **SYDNEY** and **WARRINGAH** – are geographic, of which all but **SYDNEY** are of Aboriginal in origin.

Five divisions are named after artists or writers, **DOBELL**, **GILMORE**, **LINDSAY**, **MACKELLAR** and, partially, **PATERSON**.

The divisions of **BRADFIELD**, **GRAYNDLER**, **KINGSFORD SMITH** were named after a notable engineer, union officer and aviator respectively.

That leaves five federation divisions, and nine non-federation divisions named after explorers, governors or pioneers from the pre-European, penal and colonial eras of New South Wales, namely **BANKS**, **BLAXLAND**, **COOK**, **COWPER**, **CUNNINGHAM**, **FARRER**, **GREENWAY**, **HUME**, **LYNE**, **MACQUARIE**, **MICHELL**, **ROBERTSON**, **SHORTLAND** and **WENTWORTH**.

## Division of Cook

The division of **Cook** is a curiously special case that warrants its own analysis. Named after the Royal Naval Captain James Cook FRS, the division was created in 1906 in inner southern Sydney. It was all but abolished in 1955, becoming today's **GRAYNDLER**. Then, in 1969, a new, unrelated division was created from the Kurnell peninsula and surrounding areas.

It is named after perhaps the most prominent British explorer with connections to Australia. Over the past two centuries, landmarks and monuments have been named for Cook, not just within Australia, but around the world. Even objects on the Moon and in space carry his name!

Within Australia, the towns of Cooktown and Seventeen Seventy, and the Canberra suburb of Cook are named for him. Bridges in both Sydney and Brisbane, Cooks River, Cook Island, Mount Cook, Captain Cook Highway and James Cook University are all named for him. His parents' cottage is a landmark in Melbourne. The Endeavour River and Endeavour Hills recognise his voyage. Cadastral counties Cook in both New South Wales and Queensland are also named for him<sup>2</sup>. Additionally, countless streets and roads, recreation reserves and parks, at least four hotels, a holiday park, and as of January 2023 seven cairns, one marker, three obelisks, nine plaques, seven statutes, and 17 other memorials have been dedicated to him, his ships or his explorations<sup>3</sup>.

There is no doubt that Cook himself was British and would have never identified himself as an Australian. Indeed, the name *Australia* was not even coined until more than a decade after his death. Therefore, it is impossible to suggest that Cook was ever a "deceased Australian who has rendered outstanding service to his country".

Recent controversy<sup>4</sup> has surrounded Cook, with the treatment of indigenous people upon his explorations being called into question, or at the very least, his absence of intervention in the behaviour of others. Monuments and statues have been vandalised or torn down. Several advocates determine that honouring Cook amounts to glorifying colonialism. Whether these

claims have veracity is still subject to interpretation and is best left to be addressed through other avenues.

It could be suggested that enough other legacies exist to rename the division. However, there is limited evidence that his conduct or behaviour – such as that which led to the renaming of **McMILLAN** in Victoria – currently warrants stripping him of a division name. There are still many arguments in this matter that have yet to play out, but at this point, I do not believe the division should be renamed.

According to the [Guidelines for naming federal electoral divisions](#), divisions should be named after deceased Australians who have rendered outstanding service to their country. This is further qualified with the statement that the names of former prime ministers should be considered.

The only deceased former Australian Prime Minister without a division named for him is The Rt Hon Sir Joseph Cook GCMG. The reason for this, obviously, as the division **Cook** was already dedicated to James Cook. Originally, it appears that divisions were not re-dedicated to other individuals. However, this policy has certainly changed in recent times. There is precedent for joint dedications. The division of **PATERSON** has been jointly named for both Andrew Barton "Banjo" Paterson CBE and Col. William Paterson FRS since 1992. Furthermore, the division of **CANNING** was rededicated to Sadie Miriaim Canning MBE in addition to Alfred Wernam Canning in 2021.

It makes sense that the division of **Cook** be altered to jointly honour Captain James Cook FRS alongside The Rt Hon Sir Joseph Cook GCMG. In fact, the Electoral Committee proposed this very notion in 2006. While this proposal did not eventuate at the time, I feel there is more awareness this time around to achieve this. Therefore, I propose it again as a sensible and logical suggestion. If, in time, it is decided to strip James Cook of the division name, it can then remain as a division named solely for a prime minister.

---

I propose that: The division of **Cook** be rededicated to jointly commemorate  
Capt. James Cook FRS and The Rt Hon Sir Joseph Cook GCMG.

---

## Divisions proposed to be abolished or renamed

The divisions of **BANKS**, **CUNNINGHAM**, **GREENWAY**, **HUNTER**, **MACQUARIE** and **SHORTLAND** are named for individuals who arguably would have only ever identified themselves as British.

The divisions of **BLAXLAND**, **HUME** and **MITCHELL** are named for colonial era explorers while, **COWPER** and **ROBERTSON** are named for colonial era politicians. **LYNE** could also fit this category, except Sir William Lyne served as member of Parliament and as a federal minister.

**BEROWRA, EDEN-MONARO, NEW ENGLAND, NEWCASTLE, NORTH SYDNEY, PARRAMATTA, RICHMOND, RIVERINA, SYDNEY and WARRINGAH** are geographic names. This limits their practicality as a division name. Furthermore, to some extent, each division name is duplicated in the names of suburbs, localities, regions, local government areas or state electoral divisions.

Given that one division must be abolished, I would suggest, all other criteria being considered, that the candidates for division names to be retired are selected from among the above colonial-era or geographic names.

Divisions in the North Shore and Northern Beaches, as well as the Inner West and Eastern suburbs are all well under quota. This means that a division in one of these regions almost certainly needs to be abolished. On the other hand, divisions in the west of the metropolitan area, especially in the south-west, are highly over quota, particularly on projected enrolment figures. One could feasibly shift all electorates westward through a cascade of electors.

However, this would likely lead to situations where some divisions contain few electors from their original area.

The other practical solution, and the one that I am proposing, leads to two existing divisions – **NORTH SYDNEY** and **BLAXLAND** – being abolished to make way for a new division further west. Both these divisions can be split easily into the surrounding divisions and lend themselves to a neat and compact redistribution.

---

I propose that: The division names of **BLAXLAND** and **NORTH SYDNEY** be retired.

---

## Suggestion for new division names

I suggest that the committee consider a new division named **BELLEAR** in recognition of brothers Robert "Bob" William Bellear LLB (17 June 1944 – 15 March 2005) and Solomon "Sol" David Bellear AM (1950/1951 – 29 November 2017). Both brothers worked tirelessly to improve the welfare of Aboriginal and indigenous Australians and would be more than worthy recipients of having a division named in their honour.

Bob<sup>5</sup> initially served in the Royal Australian Navy, becoming the first indigenous Australian to attain the rank of Petty Officer. He co-founded the Aboriginal Housing Company and was a director of both the Aboriginal Medical Service and the Aboriginal Legal Service. He was the second Aboriginal Australian to graduate from the University of New South Wales. He was

<http://classic.austlii.edu.au/au/journals/IndigLawB/2005/22.html>

admitted to the New South Wales Bar in 1979 where he successfully advocated for many Aboriginal and indigenous Australians.

His talent, passion and respect were demonstrated when he was appointed Counsel Assisting to the Royal Commission into Aboriginal Deaths in Custody in 1987. This was further emphasised in 1996, with the achievement of becoming the first Aboriginal judge in Australia. During his time as judge, he was a mentor to young Indigenous lawyers and law students, and he welcomed Aboriginal students as visitors to his courtroom. He spent many years visiting Aboriginal communities as part of the rural court circuit.

Sol<sup>6</sup> served on the Aboriginal Medical Service, Council for Aboriginal Reconciliation and the Redfern Aboriginal Authority. He was a founding member of the Metropolitan Land Council and the Aboriginal Medical Service as well as the first chairperson of the Aboriginal Legal Service and Aboriginal Housing Company. As a member of the Aboriginal and Torres Strait Islander Commission he was a Commissioner and Deputy Chair. He also worked for the New South Wales Department of Aboriginal Affairs.

His work in rugby league, particularly the for South Sydney District Rugby League Football Club provided additional exposure for his causes and activism. Sol introduced then Prime Minister Paul Keating at Redfern Park in 1992 where Keating delivered the now famous Redfern Park speech. He became a Member of the Order of Australia in 1999 for his services to the Aboriginal community, in particular the administration and development of Aboriginal health policies. Sol was a delegate at the convention at Uluru, resulting in the Uluru Statement from the Heart.

---

I propose that: A division named **BELLEAR** be created to commemorate both  
Robert William Bellear LLB and Solomon David Bellear AM.

## Analysis of existing divisions

### Geographic arrangement of divisions

The geography of New South Wales constrains electoral division options in many places.

The Great Dividing Range serves as a major barrier between the coast and the inland regions of the state. The various coastal regions are separate geographic entities and have limited means of communication with the areas to the west of the state. Furthermore, each coast region is separated by large bodies of water, further fragmenting the state.

In the north, the only real area for movement, without awkwardly crossing the Great Dividing Range, is through the Hunter Valley and the Upper Hunter region. As the north coast region is over threshold, some electors in the Hunter region will need to move into an inland region.

In the south, there are more avenues for travel and communication, though the overall connections between the coast is still somewhat limited. While both **PARKES**, and **NEW ENGLAND** are under quota, these divisions being the only recipients to take additional numbers in the north coast, this can be addressed easily.

The most prominent issue outside metropolitan Sydney is in the south. The inclusion of Snowy Valleys Council and Yass Valley Council within **EDEN-MONARO** appears to be a victim of the numbers during the last redistribution. These areas are situations across the Great Dividing Range from the remainder of the state, further separated by the Australian Capital Territory.

Another incompatibility is within the divisions of **HUME** and **WHITLAM**. The inclusion of Bowral, Mittagong and Moss Vale from Wingecarribee Shire in **WHITLAM** essentially severs connections for those in Wollondilly Shire and Camden Council from the rest of **HUME**, while artificially joining the Southern Highlands to the Illawarra. I will look to rectify this issue, using the electors in Camden to balance electors in divisions within metropolitan Sydney.

Within the Illawarra and Central Coast regions, and metropolitan Sydney geography plays a significant role in the makeup of divisions. Sandwiched between the Pacific Ocean and the Great Dividing Range and Blue Mountains there is little room to expand. There are also several significant water boundaries. Lake Macquarie, Tuggerah Lake, Brisbane Water, Broken Bay and the Hawkesbury River, Sydney Harbour and the Parramatta River, Botany Bay, Georges River, Port Hacking, and Lake Illawarra form considerable barriers to movement and communication. The addition of large swathes of national parks and bushland in these areas further contribute to the compartmentalisation of the various regions.

In terms of geography, the changes to include areas north of the Georges River in **COOK** is probably the biggest issue to address, aside from the aforementioned issue with **WHITLAM**. A few other issues include general contortions in the Northern Beaches and North Shore to accommodate six divisions, the less than ideal boundaries between **PARRAMATTA**, **McMAHON**, **BLAXLAND** and **REID**, the boundaries between **FOWLER**, **LINDSAY**, **McMAHON**, **MACARTHUR** and **WERRIWA** in the Liverpool area and **HUGHES** essentially being treated as a division taking electors for all the areas that didn't fit anywhere else.

## Suggested divisions

I started this process as I generally do, using a cascading approach. However, having started using all **RICHMOND**, **FARRER**, **PARKES**, **EDEN-MONARO**, **WENTWORTH**, **WARRINGAH** and **MACKELLAR** as anchor points, and failing to find adequate boundaries on all occasions, I realised that I need a new approach.

New South Wales, as mentioned, is constrained by physical geography. During one of several failed attempts, I noticed the current divisions in the east and inner west of Sydney form a rather coherent yet self-contained group. This group, comprising **BANKS**, **BARTON**, **BLAXLAND**, **GRAYNDLER**, **KINGSFORD SMITH**, **REID**, **SYDNEY**, **WATSON** and **WENTWORTH** was under quota for the current nine divisions, but over quota for eight divisions. I realised that with only minor adjustments to divisions outside this group, I could bring all the divisions within the group into tolerance.

This led me to an approach to split the state into several groups, balancing the divisions with small exchanges between them.

I created six groups that I have labelled, the North Coast, Western Rural, South Coast, North Shore, Inner West and Western Sydney. I know these labels are not entirely accurate for each division, but they serve only to identify the groups and have no bearing or significance otherwise. The headings below are more thorough in describing the areas in question.

### **Hunter Valley, Central Coast and Pacific North Coast**

In the North Coast, the total of **RICHMOND**, **PAGE**, **COWPER**, **LYNE**, **PATTERSON**, **NEWCASTLE**, **HUNTER**, **SHORTLAND**, **DOBELL** and **ROBERTSON** is slightly over ten quotas. However, transferring Muswellbrook Shire brings the overall group down to within quota. All of **RICHMOND**, **PAGE**, **LYNE**, **NEWCASTLE**, **DOBELL** and **ROBERTSON** are within quota, however I still need transfers of electors are needed to bring the other divisions in the area into tolerance. **RICHMOND** is left unchanged. **COWPER**, being over needs to transfer electors to either **PAGE** or **LYNE**. Approximately 2,400 electors are transferred in Korora, which brings both into tolerance. AS a result, **LYNE** is left unchanged.

At the other end, **ROBERTSON** is just within quota, but is left as the boundaries are clear. **DOBELL** gives up Blue Haven to **SHORTLAND**, which then extends slightly into **HUNTER** and claims Argenton and part of Glendale. With the transfer of Muswellbrook Shire, **HUNTER** also gains from **PATERSON** part of Cessnock City mostly south of the Hunter Expressway. This places both divisions in quota and means that **NEWCASTLE** is left unchanged.

## Rural and western New South Wales

In the west of the state, **NEW ENGLAND** picks up Muswellbrook Shire which brings it into tolerance. No further transfers are made. **CALARE** and **FARRER** are both within tolerance so are left untouched. **PARKES** is under quota so can now only gain electors from **RIVERINA**. This is done by taking its namesake Parkes Shire, along with Forbes and Bland Shires. Ideally, Weddin Shire would be transferred too, but the numbers do not accommodate this. **RIVERINA** now needs to gain extra electors. To achieve this, we cross into **EDEN-MONARO** in the South Coast group, with Yass Valley and Snowy Valleys Councils.

We are still under quota in **RIVERINA**, so transfer all of Hilltops Council, and Upper Lachlan Shire Council from **HUME** into **RIVERINA**.

Moving along, **HUME** now needs to gain electors, but this is easily accomplished by transferring all of Wingecarribee Shire from **WHITLAM**. This makes much more sense as the Southern Highlands are along the Hume Highway corridor, and have affinity with, and connections to other communities within the division. This also has the benefit of reconnecting those electors in Camden Council with the rest of the division. Finally, a few minor transfers are completed with Western Sydney, removing Narellan, Narellan Vale and Mount Annan, as well as few electors in the outer greenbelt of both Penrith and Liverpool Cities.

## Sutherland, Illawarra, Shoalhaven and the South Coast

The entirety of Eurobodella Shire brings **EDEN-MONARO** into tolerance, but this creates a cascade of changes along the coast. Gilmore now moves north, taking Albion Park, Calderwood and Macquarie Pass, as well as Albion Park Rail south of Tongarra Rd, Croom and Dunmore, west of the Princes Hwy.

This, along with transferring all of the Southern Highlands from **WHITLAM** leaves it now needing additional electors. This is achieved by expanding northward into Wollongong. Port Kembla, Warrawong, Unanderra, Figtree, Keiraville and Gwynneville are transferred using Picton Rd, Princes Motorway, Mount Ousley Rd, Princes Hwy and the South Coast Railway as a boundary. This causes **CUNNINGHAM** to expand north taking Sutherland Shire from **HUGHES**. **COOK** also gains some electors from **HUGHES** in Sutherland, Jannali and Como, while retreating back into Sutherland Shire and no longer crossing the Georges River. **HUGHES** then looks westward to Liverpool for electors, and will be discussed in further detail with divisions in Western Sydney.

## Sydney Eastern Suburbs, Inner West, St George and Canterbury-Bankstown

Moving into metropolitan Sydney, we start at South Head with **WENTWORTH**. Severely under quota, it can only gain electors from **SYDNEY** or **KINGSFORD SMITH**. With limited room for

**KINGSFORD SMITH** to move, we take all of Potts Point, Woolloomooloo, Darlinghurst and Surry Hills from **SYDNEY**. **KINGSFORD SMITH** also extends into **SYDNEY** taking all of Roseberry.

This leaves **SYDNEY** now under quota, so it moves back across White Bay and Glebe Island taking all of Balmain, Rozelle and Lilyfield. Further south Annandale and Leichhardt are also transferred to Balmain Rd, as well as Stanmore north of the railway line.

This, in turn, leaves **GRAYNDLER** needing more electors. It moves south, crossing Cooks River into Canterbury and Earlwood as far as Wolli Creek. Using Bexley Road and Campsie locality as a boundary, **GRAYNDLER** then gives up Strathfield South, Ashfield and part of Haberfield to **REID**.

After losing electors north of Wolli Creek to **GRAYNDLER**, **BARTON** reclaims the areas around Kogarah ceded from **COOK**. King Georges Road becomes a strong, clear boundary between **BARTON** and **BANKS**, while both **BANKS** and **WATSON** move into Bankstown picking up areas from **BLAXLAND**. **BANKS** takes the southern parts around Milperra, Revesby and Condell Park, while **WATSON** takes in Yagoona and Sefton. **BLAXLAND** then transfers Chester Hill, Villawood and Bass Hill out, while **WATSON**, **BLAXLAND**, and **REID** all transfer their parts of Cumberland City including Lidcombe, Auburn and Regents Park to the Western Sydney divisions. **REID** also loses Silverwater and Newington to the divisions in the north. Finally, **BLAXLAND** is abolished.

## Northern Beaches, North Shore and the Hills

This area is severely under quota and will need to abolish a division. **MACKELLAR** takes on Forestville and Killarney Heights from **WARRINGAH** with a small adjustment required around Brookvale to bring it within quota.

This means **WARRINGAH** needs to expand, so it takes almost all of North Sydney City, except for a small detour around St Leonards. **NORTH SYDNEY** then transfers Hunters Hill Council to **BENNELONG** and merges with **BRADFIELD** using Lovers Jump Creek, Bobbin Head Road and Ryde Road as a division boundary.

The merged division could take the name **BRADFIELD** or **NORTH SYDNEY**. **BRADFIELD** provides 62,835 current electors, while **NORTH SYDNEY** gives 66,798. Ordinarily this means that the merged division should be named **NORTH SYDNEY**. However, I suggest that **BRADFIELD** is the name that is retained. **NORTH SYDNEY** is a geographic name, and no longer contains its own namesake Furthermore, this geographic name is not Aboriginal, it contains a qualifier "North" and, replicates the name of a local government area, in part replicates another division name in **SYDNEY**. The only relevant factor for retaining **NORTH SYDNEY** is that it is a federation name, however, and in addition to the commentary I have already provided about federation names, this is not a compelling argument. This means in effect, **NORTH SYDNEY** is abolished.

The areas west of Turramurra in **BRADFIELD** are then moved into **BEROWRA** which then makes some minor adjustments with **BENNELONG** and **MITCHELL**. Cheltenham is moved into **BENNELONG**, while West Pennant Hills, and parts of Cherrybrook, Pennant Hills, and Castle Hill are moved into **MITCHELL**. Carlingford West is transferred into **PARRAMATTA**, as **MITCHELL** cleans up the southern boundary using the Hills Motorway. **MITCHELL** then sheds Box Hill to **MACQUARIE**, while **BEROWRA** likewise transfers its share of Maraylya. **MACQUARIE** is then brought into quota.

**PARRAMATTA** takes Ermington from **BENNELONG**, as well as Silverwater and Newington from **REID**.

## Western Sydney, South Western Sydney and Macarthur region

The areas in Cumberland City transferred from **WATSON**, **REID** and **BLAXLAND** are combined into a new **McMAHON**, which then loses everything west of the Prospect Highway. This **McMAHON** also sheds all of Fairfield City and picks up Merrylands and Holroyd from **PARRAMATTA**.

Fairfield City moves into **FOWLER**, along with Villawood, Chester Hill, Bass Hill and Georges Hall picked up from the abolished **BLAXLAND**.

**PARRAMATTA** makes further exchanges, losing the rest of Pendle Hill and parts of Toongabbie to **GREENWAY** which in turn transfers Riverstone and part of Schofields and Tallawong to **CHIFLEY**.

**MACQUARIE** having gained Box Hill requires no further adjustments. **LINDSAY** is over quota so needs to lose electors and gives Colyton, Oxley Park and the southern part of St Marys to join St Clair and Erskine Park.

These areas along with Minchinbury and all of **CHIFLEY** south of the railway line are combined with some of the southern parts of **GREENWAY** and the western parts of **McMAHON** into the new division of **BELLEAR**. But these areas are not enough in themselves, so Bossley Park, Abottsbury and Edensor Park are added from **FOWLER**, along with Horsley Park, Bonnyrigg Heights and Cecil Hills from **WERRIWA**.

Further transfers from **FOWLER** and **WERRIWA** are made with Chipping Norton, Liverpool, Casula, Prestons and Edmondson Park moved into **HUGHES**. Macquarie Fields, Glenfield and Inglewood make up the numbers in **HUGHES**.

These changes lead to almost three times more electors from **WERRIWA** than **HUGHES** being in the new **HUGHES**, and in fact approximately 1,000 more than I propose to retain in Werriwa. Ordinarily, this division would retain the name **WERRIWA**, while the other division could be given a new name. However, with **HUGHES** being named for a former prime minister, it is desirable to retain the name. This division being the only division in the area with any electors

from the existing **HUGHES**, combined with the relative geographic positions of the divisions in this area means that the name **HUGHES** is still appropriate for this division.

These exchanges leave **WERRIWA** to move into **MACARTHUR**, combining the low growth areas of Badgerys Creek and Austral and Greendale with the high growth areas from Camden Council including Leppington, Oran Park and Gledswood Hills. We add in additional electors from Hume in Cobbity, Bringelly and Narellan. This leaves **WERRIWA** precariously balanced at the very bottom of threshold for current electors, but at the very top for projected electors.

Overall, most divisions are clearly defined, with six existing divisions not needing any changes. The divisions combine similar communities of interest, use clear and compact boundaries for the most part, and every division meets numerical tolerances as required in the Electoral Act.

---

I propose that: The Redistribution Committee adopt boundaries described above for electoral divisions in New South Wales.

---

## Enrolment data for each electoral division

Each division is listed separately with a table outlining the actual and projected enrolment, broken down by SA2 names by existing division.

A description of the changes to the division boundary follows, proceeding in a clockwise manner. In some cases, the existing boundary is redundantly described where it is followed for a short period before deviating again.

Maps of divisions are also provided showing the suggested boundaries.

An online map of all divisions is available to be viewed at:
